Additional Game Rule Notes

- Every game should begin with a coin toss by the Referee with visiting team calling it. Team winning coin toss can choose to take the kickoff or which goal they will attack
- When the goalkeeper has the ball, either during play (from the opponent) or a goal kick is being taken, the opposing team must move behind the build out line. Once the opposing team is behind the build out line the goalkeeper, or whomever is taking the goal kick, can pass, throw, or roll the ball to a teammate, (punting is not allowed). After the ball is put into play, the opposing team can then cross the build out line and play can resume as normal.
 - If a goalkeeper punts the ball, an indirect free kick should be awarded to the opposing team from the spot of the offense.
 - If the punt occurs within the goal area, the indirect free kick should be taken on the goal area line parallel to the goal line at the nearest point to where the infringement occurred.
- No heading – indirect free kick from the spot of the offense. If the deliberate header occurs within the goal area, the indirect free kick should be taken on the goal area line parallel to the goal line at the nearest point to where the infringement occurred.
- Game may not start or continue if there are less than 5 players on a team.
